**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 2, 7, drawn to a combination vehicle light control system comprising: a dim counter, undim counter, an image acquirer operated at 240 frames per second; an AC powered light source identifier; and an external source of light identifier;
  - II. Claims 3-6, drawn to a vehicle light controller with only an undim counter;
  - III. Claims 8-12, drawn to a vehicle light controller with only a dim counter;
  - IV. Claims 13-16, drawn to a vehicle light controller with only an image acquirer operated at 240 frames per second;
  - V. Claims 17-23, drawn to a vehicle light controller with only an AC powered light source identifier;
  - VI. Claims 24-26, drawn to a vehicle light controller with only an external light identifier.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Groups II-VI are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of a subcombination because the combination may be

patentable based on any one of the other subcombinations. The subcombinations have separate utility in other combinations or have utility by itself, as evidenced by the claim structure.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
